

BELGIAN COVID-19 THERAPEUTIC  
GUIDELINES

# WHAT HAS BEEN ACCOMPLISHED

- Adventure that began in March, 2020 (with only 4 clinicians)
- Group is now composed of **18 members**:
  - Representatives of Academic Hospitals, and University affiliated hospitals
  - Sciensano
  - AFMPS/FAGG
  - KCE
- New members that have been welcomed more recently to the group:
  - Virologists
  - Immunologists

# WHAT HAS BEEN ACCOMPLISHED

- Collaboration with KCE + Generalists to create a COVID-19 therapeutic guidelines for ambulatory care
- **29 up-dated versions** of the guideline!
- Working towards creating a **National Registry** to follow-up patients with COVID-19, treated with anti-virals
  - via ORCHESTRA (a European consortium)

## FURTHER GOALS

- Continue up-dating the guidelines, but on a less frequent basis
- Create **National Registry** to follow-up patients with COVID-19, treated with anti-virals
